Subject: Draft DB press release

Hi Douglas—here's a draft press release for you and your team to review and comment. I tried to strike a balance here in terms of depth and detail, as I'm thinking we want to keep this relatively concise and simple and let folks explore additional details in posted documents. I'm not sure if I am missing some key aspects of these actions that you'd like to address in the press release itself, so feel free to add

anything you think important. Happy to discuss further at your convenience. Otherwise, will look for your edits when you get a chance to review.

Thanks in advance...
